Option 2: Post an Ad To Find An Affordable Videographer

Use this done-for-you ad and post to craigslist gigs in your area:

“Hello!

I'm looking for a videographer to film four 5-minute presentations. No editing or post-production work will be required, but I will need you to provide light and sound equipment. Full HD video (1920x1080) and lavalier microphone or equivalent is required. I will need the raw files (audio and video) within 7 days of shooting, and my budget for the project is \$75. Conscientious students welcome.”
